Webinar on Converting Research into Patents

Title of the event : Webinar on Converting Research into Patents

Date of the event : 11.12.2021

Venue of the event : Sir C V Raman Auditorium

About the event :

Join our transformative webinar, "Converting Research into Patents," where innovation meets intellectual property. In this dynamic session, discover the strategic steps to transform your research findings into valuable patents. Explore the intricacies of patent application processes, legal considerations, and the pivotal role patents play in commercialization. Engage with experts, gain actionable insights, and empower your research with the potential for real-world impact. Don't miss this opportunity to navigate the complex landscape of patenting and elevate the impact of your research. Register now to unlock the doors to innovation and secure the future of your intellectual assets.

Guest Speaker Details : Dr Rahul Kapoor,
Founder and Director,
Turnip Innovations, Mumbai.

Participants Details : 190 Participants

Organized by : Centre for Faculty Development (CFD), NSCET.

Overall Report of the Event :

The "Converting Research into Patents" webinar, held on 11.12.2021, was a pivotal event exploring the nexus between research and commercial success. Participants, comprising researchers and industry professionals, engaged in a dynamic session delving into patent application processes, legal intricacies, and the strategic importance of patents in commercialization. Expert presenters shared valuable insights, providing a roadmap for transforming research into valuable intellectual property. The high level of engagement, evidenced by participant questions and contributions, underscored the event's success. Attendees left empowered with actionable knowledge to navigate the complex patenting landscape. The event served as a catalyst for bridging the gap between research excellence and real-world impact. Gratitude is extended to all participants, speakers, and organizers for contributing to the success of this transformative webinar. Stay tuned for more events driving innovation and intellectual property awareness.
