Action Taken Report and Achievements Report as Clear and Green Campus Initiatives

Following the Energy, Environment, and Green audit conducted on 05/01/2023 & 06/01/2023, several key actions are underway to foster an eco-friendly campus environment by

- LED bulbs are gradually replacing fluorescent bulbs across our campus as part of our ongoing efforts toward energy efficiency.
- Encouraging the plantation of trees within the campus is a vital aspect of our green initiatives, recognizing trees as invaluable assets for the future sustainability of our environment.
- We are planning to increase the installation of solar panels to further promote the utilization of renewable energy resources
- We've designed environmental promotion programs aimed at encouraging both students and staff members to advocate for sustainability, both within and beyond our college premises.
- We've decided to prioritize the purchase of electronic items with a 5-star energy rating over 3-star ratings to significantly minimize future energy usage.
