

NADAR SARASWATHI COLLEGE OF ENGINEERING AND TECHNOLOGY

Vadapudupatti, Annanji (po), Theni – 625 531

Workshop on Introduction to PCB Design and Antenna Simulation Prototype

Title of the event : Workshop on Introduction to PCB Design and Antenna Simulation Prototype

Date : 02.03.2021

About the Workshop:

Embark on a journey of technological exploration in our upcoming workshop on 03.03.2021, focusing on the critical domains of PCB design and antenna simulation prototype. Tailored for researchers, engineers, and technology enthusiasts, this session offers a comprehensive dive into fundamental concepts, innovative techniques, and practical applications. Participants will unravel the intricacies of PCB design, explore cutting-edge technologies in antenna simulation, and engage in hands-on prototyping activities. Our expert facilitators will guide you through the latest trends and methodologies, ensuring you gain the skills required for impactful research and development in these dynamic fields. Join us for a day of insightful learning and practical exploration, as we navigate the evolving landscape of PCB design and antenna simulation.

Guest Facilitators: Mr.G.Sathish, Sr. Sales Engineer,
Entuple Technologies Private Limited,
Bangalore.

Participants Details: 200 participants.

Organized by: Department of Electronics and Communication Engineering

Conclusion:

The "Workshop on Introduction to PCB Design and Antenna Simulation Prototype" is poised to be an enriching experience for participants seeking to deepen their understanding of these crucial technological domains. We invite researchers, engineers, and tech enthusiasts to join us on 03.03.2021 for a day of insightful learning, hands-on activities, and networking with industry experts. Stay tuned for a workshop that promises to broaden your horizons in PCB design and antenna simulation.

Dr. C. MATHALAI SUNDARAM, M.E., M.B.A., Ph.D.,
