IMPLEMENTATION OF E - GOVERNANCE

Sub: Implementation of E-governance —Technical Team-Nadar Saraswathi College of Engineering and Technology, Theni.

Our college intends to use E-governance in a variety of academic and administrative tasks. Our college's Technical Team created College Management System (CMS) for the adoption of E-governance. Our college's technical team creates software for admission, finance management, office administration, online class entry, and a portal for staff and student grievances. Our Technical team created and validated the internal automation tools for the successful adoption of E-governance. I officially approve the software produced by our Technical team for successful E-governance implementation.

Though internally we had a team to develop the application, we did not approach any third party to purchase the same.
