Charting Success in Engineering

Name of the resource person : Mrs.D.Abinaya,B.E.,M.B.A.,
Date : 11.01.2021
Time : 01.30pm-03.30pm
Venue : Sir C.V.Raman Auditorium
Number of benefits : 230

Being an engineer is much more than just performing calculations and making drawings. In the real-world, professional engineers are needed to take responsibly for leading projects including planning for time, quality and cost. To complete a project successfully you must control a large number of activities, and ensure that they're completed on schedule. If you miss a deadline or finish a task out of sequence, there could be knock-on effects on the rest of the project. It could deliver late as a result, and cost a lot more. That's why it's helpful to be able to see everything that needs to be done, and know at a glance, when each activity needs to be completed.
