Vadapudupatti, Annanji (po), Theni – 625 531

Workshop on Research in Ethical hacking and Cyber Security

Title of the event   : **Workshop on Research in Ethical hacking and Cyber Security**

Date of the event   :   03 October 2020

Venue of the event   :   Sir C V Raman Auditorium

About the event   :

The "Workshop on Research in Ethical Hacking and Cyber Security " is a hands-on initiative crafted to immerse students in the dynamic field of ethical hacking and cybersecurity research. Tailored for students, this workshop provides practical insights into the latest research trends, techniques, and tools in ensuring digital security. Participants will engage in interactive sessions, simulations, and discussions, gaining a comprehensive understanding of ethical hacking practices. The workshop aims to empower students with valuable skills to address cybersecurity challenges and contribute to the evolving landscape of digital defense. Join us for this enriching workshop that equips students with the knowledge and capabilities to navigate the complexities of ethical hacking and cybersecurity research.

Guest Speaker Details   :   Mr.T.Lakshmichandrakanth, Founder & CEO,

SystimaNXIT Solutions,

Madurai.

Participants Details   : 96 participants

Organized by   : Department of Computer Science Engineering.

Overall Report of the Event   :

The Workshop on Research in Ethical Hacking and Cyber Security for Students culminated as a resounding success, providing an immersive experience in the realm of digital defense. Throughout the event, students actively engaged in hands-on sessions, simulations, and discussions, gaining practical insights into the latest research trends and ethical hacking practices. The workshop not only equipped participants with valuable skills in cybersecurity but also fostered a deeper understanding of the ethical considerations involved. The collaborative spirit and enthusiasm exhibited by students showcased a collective commitment to staying abreast of evolving digital threats.

As we conclude this workshop, we extend our gratitude to both participants and instructors for contributing to its success. We anticipate that the knowledge gained will empower students to navigate the complexities of ethical hacking and contribute to fortifying digital security in an ever-evolving landscape. Stay tuned for future events that continue to nurture expertise in cybersecurity research.
